LANDSCAPING SERVICE

... an Investment that GROWS!

• COMPLETE PLANNING SERVICE

We'll prepare a complete landscape plan for you, to suit your needs and your budget, at nominal cost, explaining in detail what can be done on your property to make it more attractive and useful. The cost is deducted in full from your first purchase of plants for that amount.

• ON THE SPOT PLANTING SUGGESTIONS

Bring a photo or elevation sketch of your home to help us assist you in making planting suggestions — at no cost.

Landscape by Sargents

This little dooryard garden is planted and fenced to offer a degree of seclusion and a shady spot for relaxing. It is off the dining area with a door connecting, so becomes almost a part of the house, being obviously completely useful as well as a most attractive decoration.

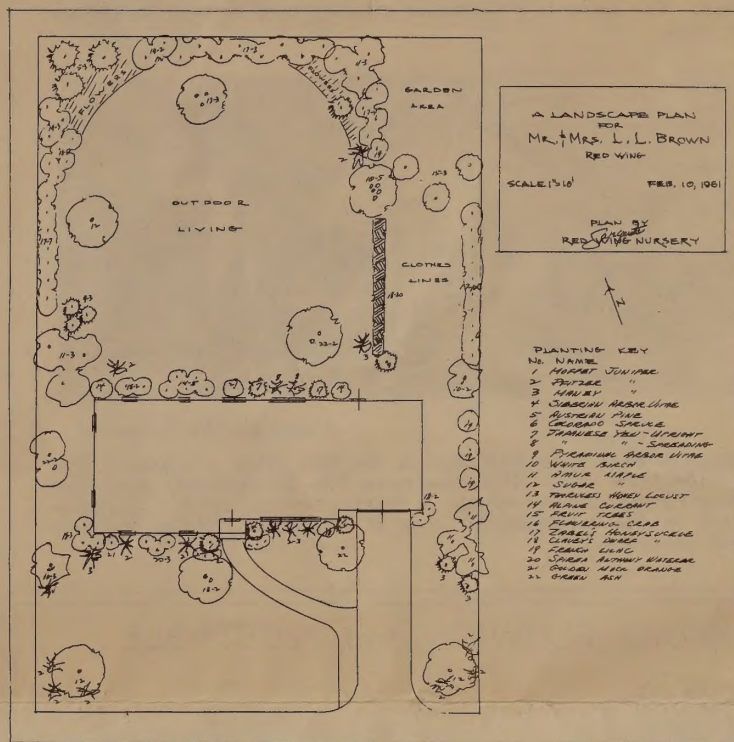

Landscape by Sargents

This planting is simple and uncluttered, dignified, but with variety enough to make it interesting. When the trees get larger they will provide good enframement for the house and yard.

Photo Courtesy American Association of Nurserymen

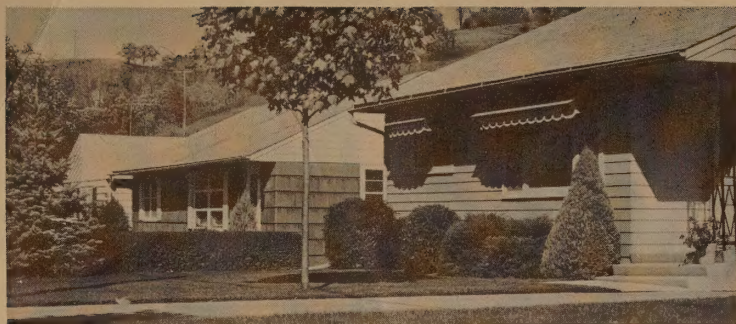

This is the sort of landscape plan we offer to prepare for you — carefully tailored to fit your particular needs. A complete explanation is given too, of course. A charge of fifteen dollars is made for this service, however this entire amount is placed to the credit of your account and may be used toward the purchase of needed plants.

WHICH?

Landscape by Sargents

These folks must take real pride in keeping this yard so beautifully groomed. The scene is a perpetual greeting card to their neighbors and friends.

Landscape by Sargents

A test of a good basic planting: is the total view a pleasing one, front, sides and rear? Here we have fine background, good side planting for enframement, and a front planting which is complementary to the architectural lines of the house, adding richness without gaudiness.

ANNUAL FLOWERS and VEGETABLE PLANTS

Large assortment, beautifully grown and of top quality – as fine as you've ever seen.

Growing

YES, MOST OF OUR PLANTS ARE ALL IN LEAF, GROWING, READY FOR YOU TO PICK THEM UP AND PLANT AT ANY TIME YOU FEEL LIKE IT, SPRING OR SUMMER.

- PLANTS ARE IN LEAF, SOME EVEN IN BLOOM
- NO LOSSES IN PLANTING
- EASY TO PLANT
- NO WAITING TO SEE WHAT THEY'LL LOOK LIKE WHEN THEY START TO GROW — THEY'RE ALREADY GROWING

Photo Courtesy American Association of Nurserymen

To be really pleasing, a flower border must have good background; and a truly useful and enjoyable private yard ought to be separated from the immediate neighborhood. This yard shows good planning.
